

John F. Fessler

AI Analyst and Data Scientist

Mountain View, CA
707.338.9239
jffessler@gmail.com

PROFESSIONAL SUMMARY

Data professional supporting AI/ML model development through data sourcing, labeling QA, workflow analytics, and validation. Experience improving annotation quality and operational efficiency through QA processes, feedback loops, and performance tracking. Technical foundation in Python, SQL, machine learning, and data visualization.

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript, HTML/CSS
- **Tools & Platforms:** Pandas, NumPy, Scikit-learn, Matplotlib, Plotly, Dash, Git, Linux, React, Next.js, AWS, Firebase, Supabase
- **Data & Analytics:** Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Data Annotation, QA Processes, Model Validation, Workflow Analytics

PROFESSIONAL EXPERIENCE

Structify

Data Specialist | Junior QA | Market Research Specialist | Data Development Feb 2025 – Apr 2026

- Supported AI/LLM training workflows through complex data labeling, validation, and quality assurance.
- Co-led contractor operations for data sourcing and collection, ensuring readiness for model validation.
- Conducted detailed QA reviews of labeled datasets, identifying annotation inconsistencies and improving overall data quality prior to model training.
- Delivered structured feedback to labeling team members, establishing a rapid feedback loop that improved annotation consistency and reduced recurring errors.
- Served as liaison between labeling contractors and Data Lead while labeling complex decision paths and nuanced AI training scenarios.
- Produced analytics on labeling throughput, productivity, and error rates to identify performance trends.
- Assisted with sales outreach initiatives, onboarding, SOP development, and workflow improvement.

PROJECT EXPERIENCE

Google Advanced Data Analytics Capstone | [Summary](#) Nov 2024

- Cleaned and transformed structured datasets using Pandas and NumPy.
- Conducted exploratory and statistical data analysis using Matplotlib, Seaborn, and SciPy.
- Built and tuned machine learning models including Random Forest, Decision Tree, and XGBoost.
- Delivered a classification model achieving ~98% accuracy with supporting business insights.

IBM Data Science Capstone | [Presentation](#) Aug 2024

- Collected and processed data through APIs and web scraping techniques.
- Performed SQL-based analysis and developed visualizations using Plotly and Dash.
- Utilized machine learning models including Logistic Regression, SVM, KNN, and Decision Trees.
- Applied GridSearchCV for hyperparameter tuning and model optimization.

Full-Stack Web Application (React / Firebase) | [Website](#) Aug 2024

- Developed a full-stack application using React, Firebase, and modern UI frameworks.
- Implemented user authentication, real-time database interactions, and RESTful data operations.
- Designed responsive UI components and managed application state.

CERTIFICATIONS

- Google Advanced Data Analytics Certificate [Certificate](#) | Nov 2024
- IBM Data Science Professional Certificate [Certificate](#) | Aug 2024
- AWS Certified Developer - Associate [Certificate](#) | Apr 2023

EDUCATION

- Bachelor of Arts in Marine Science | University of California, Berkeley Dec 2016
- Associate in Arts in Mathematics (Highest Honors) | Santa Rosa Junior College May 2014

PREVIOUS EXPERIENCE

- **Restoration Technician | Crew Leader** | Prunuske Chatham Inc, Sebastopol, CA Dec 2021 - May 2024
- **Assistant Carpenter** | Rusty Mila Construction, Santa Rosa, CA Nov 2018 - Dec 2021
- **Field Assistant** | Marin/Sonoma Mosquito & Vector Control District, Cotati, CA Mar 2018 - Oct 2018
- **Fisheries Technician I** | Pacific States Marine Fisheries Commission, Santa Rosa, CA Mar 2017 - Dec 2017
